## EXPERIENCE

**Integration Engineer** Sep 2025 – Present  
*Alten · Autodesk — Integration & Release*

C# · .NET · Jenkins · Azure · PowerShell

- End-to-end owner for **add-on-to-host releases** across 4 annual tracks and 4+ repos: build → package publish → integration PR → build-farm QA.
- Owned **go/no-go on integration rollback** after upstream runtime upgrades — triaged regressions and reverted with documented decision, unblocking release when QA failed.
- Built **local host application** from source to unblock add-on validation when CI packages unavailable — cut multi-day waits during integration.
- Led **cloud build-agent migration** for 2 add-on CI/CD estates across multiple annual release branches — completed Azure cutover without release-track downtime.
