BEST FIT

DevOps / SRE roles
Platform & build engineering
Release / CI/CD ownership
Remote-first · Bucharest hybrid

CORE STACK

CI/CD: Jenkins, Groovy, Azure, Bitbucket
Automation: PowerShell, Python, BAT, Ansible
Backend: C#/.NET, Windows Services, Microservices
Cloud: Azure, AWS ECS, Docker
Frontend: React, Next.js

STRENGTHS

Pipeline architecture & cleanup
Legacy-to-modern delivery thinking
Fast tooling adaptation
Mentoring & onboarding

LANGUAGES

Romanian – native
English – fluent

CERTIFICATIONS

Java 1 Associate (OCA)
C# Advanced

PROFILE

DevOps engineer with 4+ years across CI/CD platform engineering, .NET build systems, and automation-heavy delivery environments. Strongest when turning fragile pipelines into reusable, low-friction internal platforms with Jenkins, Groovy, PowerShell, Python, and Azure/AWS migration work. Best positioned for DevOps, platform, build/release, and cloud-adjacent engineering roles.

EXPERIENCE

DevOps Engineer Sep 2025 – Present

Alten (contracted to Autodesk)

Azure · Jenkins · Groovy · PowerShell · BAT · .NET · AWS ECS

- Delivered the migration of a .NET-focused CI/CD platform from **AWS ECS** to **Azure** with minimal disruption.
- Maintains and extends **Jenkins**, **Groovy**, and Windows automation for reliable, reusable delivery workflows.
- Implemented new automated tests and pipeline integrations across multiple delivery paths.
- Optimized .NET packaging/build steps and added dynamic dependency discovery with safer fallbacks across environments.

Software Developer Jul 2025 – Sep 2025

Independent Contractor

React · Next.js · Python · AI Integration · Sage X3 (4GL)

- Built React-based UI flows that enabled natural-language database querying in a legacy ERP context.
- Delivered migration scripts and modernization features around **Sage X3**, automation, and AI-assisted workflows.

.NET Developer Sep 2022 – Jul 2025

Cognyte

C#/.NET · Ansible · Jenkins · Groovy · Bitbucket · Wix · Python

- Owned feature delivery, debugging, optimization, and operational upkeep for **40+ microservices**, including 15 core services.
- Maintained Windows services in **C#/.NET** while automating end-to-end **CI/CD** with **Ansible**, **Jenkins**, Groovy, Bitbucket, Visual Build, and Wix.
- Worked cross-functionally with architects, QA, DevOps, and Product; also led training, mentoring, and onboarding.

Internship – Web Application Developer Apr 2021 – Aug 2021

CS Vision

ASP.NET MVC · WPF · Java · jQuery

- Maintained and improved **ASP.NET MVC** applications for production use.
- Built a **WPF** onboard unit deployed in major Romanian cities and independently migrated a Java project to WPF.

EDUCATION

Bachelor's Degree in Computer Science Sep 2019 – Aug 2022

Faculty of Mathematics and Computer Science, University of Bucharest

Graduation Thesis: "Implementation of Real Estate Management Software"
