

Florentin-Cristian Fusneica

PLATFORM ENGINEER · BUILD SYSTEMS / CI/CD / DEVELOPER TOOLING

CONTACT

-  Bucharest, Romania
-  +40 771 434 701
-  fusneica.florentin.cristian@gmail.com
-  LinkedIn
-  GitHub

BEST FIT

- Platform & internal tooling
- Build systems & packaging
- Developer workflow automation
- Remote-first · Bucharest hybrid

CORE STACK

- Platform:** Build systems, pipeline templates
- CI/CD:** Jenkins, Groovy, GitHub Checks
- Cloud:** Azure agents, artifact storage
- Scripting:** PowerShell, Python, Groovy
- Quality:** Cobertura, dotnet-coverage

STRENGTHS

- Self-service pipeline patterns
- Modular packaging design
- Cloud platform migration
- Team onboarding tooling

PLATFORM PATTERNS

- Reactive Jenkins parameters
- Shared Groovy libraries
- Auto-trigger release workflows

LANGUAGES

- Romanian – native
- English – fluent

CERTIFICATIONS

- Java 1 Associate (OCA)
- C# Advanced

EDUCATION

- BSc Computer Science
- University of Bucharest, 2019–2022

PROFILE

Platform engineer with 4+ years designing internal build and delivery systems for enterprise .NET products. Builds self-service Jenkins tooling for packaging and integration teams across 4+ repos. Strongest in Azure migration, Cobertura infrastructure, and developer workflow automation.

EXPERIENCE

Platform Engineer Sep 2025 – Present
Alten · Autodesk — CI/CD Platform

- Azure · Jenkins · Groovy · PowerShell · .NET · Artifactory
- Architected **cloud platform migration** from legacy build agents to Azure across 2 add-on CI/CD estates, 4 annual release tracks, and 4+ packaging repos — completed cutover on all active tracks.
- Designed **self-service pipeline patterns** with Groovy shared libraries, reactive Jenkins parameters, and centralized MSBuild props — teams onboard new branches without maintaining pipeline forks.
- Split **monolithic .NET packaging** into modular, cacheable components with dynamic tool discovery and intelligent fallback logic — reduced redundant prebuild downloads on integration builds.
- Built **code coverage infrastructure** (local + CI, Cobertura/HTML) and PowerShell procurement helpers — enabled branch-level coverage gates.
- Delivered **GitHub Checks**, Cobertura gates, and auto-trigger workflows connecting packaging pipelines to downstream integration PRs.

.NET Developer Sep 2022 – Jul 2025
Cognyte

- C#/I.NET · Ansible · Jenkins · Groovy · Wix
- Managed **platform for 40+ microservices** — complete lifecycle from build to production (15 core).
- Built **deployment platform** using Ansible, Jenkins, Groovy, and Wix — fully automated commit-to-production.
- Drove **platform reliability** through standardized deployment patterns; led onboarding on platform engineering practices.

Earlier Roles 2021 – 2025
CS Vision · Independent Contractor

- Intern (CS Vision): ASP.NET MVC / WPF maintenance and Java → WPF migration.
- Contractor (2025): **ERP modernization** scripts and React automation.

PROFESSIONAL DEVELOPMENT

Software Architect Course 23 Jun – 3 Sep 2026
Skillab · In progress · 3 modules / 19 lectures

- DDD · Event-driven · Kubernetes · AWS · Kafka · Docker · IaC · ATAM
- Programme: requirements, DDD/event-driven design, distributed systems, quality attributes, ATAM, security, and threat modelling.
- Hands-on **capstone**: full solution architecture with diagrams, ADRs, Docker/Kubernetes/AWS workshops, CI/CD & IaC pipelines, OpenTelemetry/performance testing, and assessed presentation.

PERSONAL PROJECTS

FamilyHub Manager 2024 – Present
Personal project · 8-repo monorepo

- Django · React · PostgreSQL · Celery · Docker · Playwright · MCP
- Estate-management platform: Django REST + React PWA — properties, tenants, rent/utilities, budget, document OCR; **MCP server** for domain APIs, Docker Compose, Playwright E2E, GitHub Actions CI.
